Response to Notice Regarding Drawings

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

In response to the Notice mailed April 25, 2005, please consider the following remarks.

Objections are made to Figs. 6 and 7. However, formal versions of Figs. 6 and 7 were submitted on June 28, 2004 and were accepted in a Notice of Allowability on Jan. 21, 2005 by the Examiner, a copy of which Notice of Allowability is attached as Exhibit 1. An additional copy of the formal drawings of Figs. 6 and 7 is attached as Exhibit 2.

The sketches, which included inter alia Figs. 6 and 7, in the amendment of Nov. 19, 2004 were only illustrations in support of the argument made in the remarks. A

review of that amendment will clearly show that no amendment to the drawings was made or proposed.

The applicant respectfully requests the Notice Regarding Drawings be reconsidered.

The Director is hereby authorized to charge and fees to Deposit Account No. 01-1960.

I hereby certify that this correspondence is being deposited with the United States Postal Service as first class mail in an envelope addressed to: Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450

DATE MAILED: 01/21/2005

Determination of Patent Term Adjustment under 35 U.S.C. 154 (b)
(application filed on or after May 29, 2000)

The Patent Term Adjustment to date is 0 day(s). If the issue fee is paid on the date that is three months after the mailing date of this notice and the patent issues on the Tuesday before the date that is 28 weeks (six and a half months) after the mailing date of this notice, the Patent Term Adjustment will be 0 day(s).

If a Continued Prosecution Application (CPA) was filed in the above-identified application, the filing date that determines Patent Term Adjustment is the filing date of the most recent CPA.

Applicant will be able to obtain more detailed information by accessing the Patent Application Information Retrieval (PAIR) WEB site (<http://pair.uspto.gov>).

Any questions regarding the Patent Term Extension or Adjustment determination should be directed to the Office of Patent Legal Administration at (571) 272-7702. Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

EXAMINER'S AMENDMENT

An Examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR § 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

In claim 12, last line, the word "waveguide"
has been inserted after "resonance";

This minor change was made in order to correct a transcription error and to provide precise antecedent agreement in the claim. Such minor changes do not require consultation with applicant or applicant's representative (MPEP § 1302.04).

EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

The following is an Examiner's Statement of Reasons for Allowance: After careful scrutiny of U.S. Patent 6,201,825 (Sakurai et al) and the claims of the present application, the Examiner agrees that the Patent does not teach or suggest the Bragg resonance waveguide semiconductor optical device which is claimed herein. The Examiner agrees with the analysis of Sakurai et al presented on pages 7-11 of applicant's November 16, 2004, amendment, and particularly agrees that the distinguishing features include (i) waveguiding channels in the claimed invention but not in Sakurai et al, and (ii) providing gain by pumping the transverse Bragg resonance waveguide in the claimed invention but not in Sakurai et al. Also, after careful scrutiny of U.S. Patent 6,061,381 (Adams et al) and the claims of the present application, the

Art Unit: 2874

Examiner agrees that the Patent does not teach or suggest the Bragg resonance waveguide semiconductor optical device which is claimed herein. The Examiner finds that Adams et al fails to disclose or suggest providing gain by pumping the transverse Bragg resonance waveguide. After an updated search of the prior art, no additional relevant prior art documents have been found. Claims 1-21 herein are therefore allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning the merits of this communication should be directed to Examiner John D. Lee at telephone number (571) 272-2351. The Examiner's normal work schedule is Tuesday through Friday, 6:30 AM to 5:00 PM. Any inquiry of a general or clerical nature (i.e. a request for a missing form or paper, etc.) should be directed to the Technology Center 2800 receptionist at telephone number (571) 272-1562, to the technical support staff supervisor (Team 8) at telephone number (571) 272-1564, or to the Technology Center 2800 Customer Service Office at telephone number (571) 272-1626.
